

Dear Ashland

I am sorry for what happened. I hope you can recover. Your community was very helpful. It's not easy to get back to how it was. You've lost a lot and I don't know how it feels but it must feel terrible. I was born in New York so I don't know how it was to live your childhood here. You have gone through the tragedy of a fire. You are very lucky for staying safe and all I have to say is be yourself and keep trying. Also never give up.

Sincerely Justin

Dear Friends, / Firefighters

I wanted to let  
you know that you are awesome  
at doing your job! I'm  
glad that you help a  
lot of people. Thank you  
for keeping our states  
safe & our animals too.

I have lived in Kansas  
my whole life & when  
I saw you saving people  
I thought I would  
like to grow up like  
you.

Sincerely, Ricci Bailey

OUT OF TOWN

Ricardo

Dear Farmers,

I hope everything goes well

and I will always pray for

you because I want everything

to be okay. God is the

only one to help us so

don't worry. God will always be

there for you. If someone tells

you "you can't do this!" Don't

EVER believe them. because

I could never fold my tongue.

2 weeks ago. I learned how to fold my

tongue so that means you can

do it too!

Sincerely, Marcos Loya
